

Airtel Enterprise Services

Establishing Strong Communication Strings

Bharti Airtel Limited, a group company of Bharti Enterprises, is amongst Asia's leading integrated telecom service providers with operations across a number of countries. The company has an aggregate of more than 138 million customers

Bharti started its telecom business by launching mobile services in Delhi (India) in 1995. Since then there has been no looking back and Bharti Airtel, the group's flagship company, has emerged as one of the top telecom companies in the world and is also amongst the top three wireless operators in the world.

Through its global telecom operations Bharti group operates under the 'Airtel' brand in 20 countries across Asia and Africa—India, Sri Lanka, Bangladesh, Seychelles, Burkina Faso, Chad, Congo Brazzaville, Democratic Republic of Congo, Gabon, Ghana, Kenya, Madagascar, Malawi, Niger, Nigeria, Rwanda, Sierra Leone, Tanzania, Uganda, and Zambia. In addition, the group also has mobile operations in Jersey and Guernsey.

ENABLING MOBILITY

Catering to the operational needs of any organization, Airtel's Enterprise Mobility Solutions enable the customers to be the task master of his business with an inclusive service that provides apps, voice plans & devices and gives your employees the freedom to work from anywhere.

BUSINESS ACCESIBILITY

Businesses require solutions that help plan for unexpected outages and disruption of critical processes across lines of collaboration. Airtel's Business Continuity Solutions deliver Backup Connectivity, Data, Voice and Mobile Hosting, Storage

and Application Management and Security.

As President of the Enterprise Services unit, Drew Kelton's key focus is to lead the transformation of the business to create a world class business-to-business (B2B) organization.

Commenting on Drew Kelton's, Sanjay Kapoor, CEO (India & South Asia), Bharti Airtel said, "We are delighted to have Drew on board and his appointment is in line with our philosophy to bring in the best of global talent. In his new leadership role at Bharti Airtel, Drew will build on the existing capabilities and strengthen the international data services business to ensure Airtel continues to be the preferred enterprise solutions provider to top corporates".

COST OPTIMIZATION

Businesses are constantly working on optimising cost by reducing technology spend, managing service levels and demonstrating the business value of information and communication technology. Airtel solutions have skillfully optimized costs by streamlining workflows and business processes across enterprises.
