

Al Dobowi Group

Moving Towards Excellence

The Al Dobowi Group was formed in 1976 to address the needs of a growing tyre management and service industry in the Middle East

AL DOBOWI

the future of motion

Today Al Dobowi have grown to become a leading global player in the industry providing clients with superior services and unique solutions to their problems across three continents.

They have grown beyond tyre management and have started providing the clients with all their motion related needs. This includes batteries for motive power, lubricants, conveyor belt systems and technical rubber products.

AL DOBOWI LIMITED

The Al Dobowi Group is committed to remain at the forefront of the tyre management industry. In order to cope up with the current situation, the Group established, Al Dobowi Limited in 1995 the most technologically advanced retreading facility in the Middle East.

With a view to maintain the high standard of quality and service synonymous with the Al Dobowi name, the Group:

- Partnered with the world's leading retreader, Bandag, to ensure the Group benefits first from technological innovations;
- Placed high emphasis on safety first, profits second. For example, Al Dobowi Limited is the only retreading facility in the Middle East which scans, via computer, each tyre both before and after retreading.
- At the same time the Group also set up one of the most technologically advanced facilities for the manufacturing of tailor made technical rubber products in the Middle East. This facility was set up in recognition of the need of clients for tailor-made solutions with regards to their rubber needs. This facility provides a range of solutions from full conveyor roller systems to a small dock fender.

AL DOBOWI TYRE COMPANY

Al Dobowi Tyre Company ("Al Dobowi"), has been servicing the client needs for over three decades.

During that time, it has built up a reputation as the most trusted name for automotive products in the region.

They market a range of high performance tyres and high quality automotive batteries. They also distributes lubricants, motor oils and alloy wheels.

They service the domestic UAE market through its presence in all seven Emirates and the markets of East Africa, the CIS and Afghanistan through their vast dealer network.

Al Dobowi is the most professional choice when it comes to commercial tyre requirements. Since its inception over three decades ago Al Dobowi has established itself amongst the most prominent tyre distributors in the UAE. Not only have they gained vast knowledge of effective customer service but they also boast some of the worlds leading original fitment tyre brands. Al Dobowi is the only major tyre player in the UAE to offer the Total Tyre Management System ("TTMS") to its fleet clients. Its fleet programs include a package offered to selected fleets whereby they assist in maximizing tyre usage in the fleet and thereby reduce total tyre operational cost. They conduct fleet studies on selected transport fleets customers and offer on-time advice to assist customers to save on downtime and tyre headaches. They were also the first company to have a service truck to service clients in the UAE. They are also the only tyre company in the Middle East to offer the two life concept to its clients – both new and retread under one roof. Training end user customer's personnel also plays an important role for Al Dobowi and they are regularly conducting training sessions for their customers.

CERTITUDES

Solid Tyres

- The solid tire range is made up of two core products: Pneumatic Shaped Solids (or Resilients) and Press on tires, which include Rubber and Polyurethane press on tires.
- All products are manufactured with compounds developed within the Industrial Tire Division

BEACON OF TOMORROW

Pneumatics

- Trelleborg Industrial Pneumatic Tires are Diagonal/Bias ply tires, and are available with or without tubes.
- Diagonals consist of multiple layers of textile, which are diagonally positioned from each other.
