# LINGEL Windows & DOORS TECHNOLOGIES

## A WINDOW TO THE WORLD

One of the top ten companies in windows & doors manufacturing industry, Lingel Windows & Doors Technologies has established itself as a world-class brand and a leading innovator in fenestration products. It is a fruitful offshoot of the German firm, Karl Lingel Fensterbau GmbH & Co.KG, established in 1959 and a leading manufacturer of high-quality doors and windows in Europe.

It is a well-acknowledged fact that a building breathes through its doors & windows as they are the vital points of ventilation besides providing safety and assistance in light and temperature regulation. Finely crafted doors and windows look impressive and enhance the aesthetic appeal of architectures. Keeping these aspects in mind, Lingel Windows & Doors Technologies employ cutting-edge technology in designing windows and doors which help in maintaining a cooler, quieter, water-&-dust-proof and secure environment while simultaneously delivering an extraordinary combination of style, elegance and quality.

## LEADER IN INNOVATION

Apart from having a sound background in building-construction projects, Lingel also provides a cutting-edge in technology & services and is dedicated to provide the best solutions that are high on standards, at very affordable rates. Considering the wide climatic variation in India, owing to its varied geographical features, Lingel has consistently evolved its technology over the years and has ultimately succeeded in the introduction of windows and doors that perform in all climates. The windows are ideally fitted for the country as it sees a huge variation in its climatic conditions including extreme winters, extreme summers and heavy monsoons. Lingel windows are

armed with a superb UPVC structure, the glazing system and finest quality of glass, and customers are provided with a wide variety ranging from single-glazed, double-glazed and even triple-glazed windows. They are also given an option of a combination of E glass for maximum heat deflection.

Lingel's glasses come in crystal clear and also in various colors with subtle tints and can be tempered, toughened, frosted, cleaned and beveled for a clean sculptured look. The final choice of customization rests with the customers;

however, Lingel's team is always available for assistance.

A significant indicator of the success of an organization is its ability to spread its wings. Under the exemplary leadership of Mr. Mario Schmidt, Lingel has its presence in around 21 cities of India, covering every major city. Lingel has also been associated with some of the renowned projects such as Pali Temple in Gujarat; Gurudwara Bangla Sahib in New Delhi; The Grand, New Delhi; Great Lakes Institute in South India; Sterling Mc Hotel, Bangalore; The Leela Ambience Hotel and Central Park II in Gurgaon and many more.

### **OPENING POSSIBILITIES**

Nature's resources have always been consumed by humans since time immemorial. They destroyed forests for their shelter by cutting trees to obtain wood and timber – a trend which has lingered over to the present time and is a great threat to the existence of mankind. Lingel took a commendable step in this direction almost 50 years ago to meet the challenges of sustainable development and is now successfully delivering real progress worldwide.

Lingel's products have significant roles to play in helping improve people's lives and conserve energy in a world that is growing in population, with ever-increasing demands for water, food, shelter, sanitation, energy, health services and economic security.
