

POWERFUL

HPM Chemicals & Fertilizers Ltd

THE GREEN WARRIORS

As one of the premier Agro Chemical Suppliers in India and abroad who have been serving this industry for the last four decades standing steadfastly on its mission of bringing prosperity to those associated with it, HPM Chemicals & Fertilizers believe in transcending boundaries and working extensively with the farming community to help them raise better crops.

Indian Economy depends largely on its agricultural production and

the quintessential requirement of an agrarian economy is being aggrandized and associated with trustworthy companies that help them in giving better yields, while protecting their crops from all kinds of harmful pests and weeds. HPM Chemicals & Fertilizers has been the fore runner in contributing towards the Green Revolution drive by constantly striving to provide innovative and effective range of crop protection products and plant nutrients.

Established in the year 1974 with humble beginnings formulating old molecules like DHC & DDT they have grown to become one of the largest manufacturers of agro-inputs using the safest environment-friendly technology driven by the zeal to uplift the agricultural production. They have three manufacturing units, multi-location warehouses, distribution ventures, a vast network of 5000 distributors, and more than 45000 retailers. Being ISO 9001 & 2008, ISO 4001 & 2004 certified they are quality-driven complying by all safety standards and led by a professionally

qualified experienced team. They have built trusted inroads pan-India supplying their products into 595 districts and reaching out even into the remotest areas by supplying to over 7000 villages. Their trust and integrity have reached out globally and they now supply to 22 countries in three continents.

Their technology is abreast with the world standards and the most superior fertilizers and farming seeds are used for accentuating the growth of the farmer's crop production. Their products hold a much longer shelf life as compared to other products available in the market. They ardently seek to facilitate farming and farmers, guiding them with ideas and products that are technologically driven, have a scientific agricultural base and propel their agricultural yields.

YIELDING PROSPERITY

Under the dynamic leadership of their visionary Shri Srikisan Dass Aggarwal and Ashok Aggarwal HPM stands as a major supplier for a spectrum of specialized varied agro-input products that contribute towards high yields and protection to the plants. They understand the need of the farmers of today and work in congruence with them to realize the full potential of their crops and provide them with products that would enhance their productivity and be bestowed with

bountiful healthy nutritional crops. They manufacture a wide range of insecticides, fungicides, herbicides, and plant growth regulators which prevent the crop from being infested by pests, insects, fungi and bacteria, and stimulate plant growth. The herbicides help the farmers reduce manual labour by taking care of the weeding problem and attain complete potential for their growth. Their tested-and-tried plant growth regulators provide the needed micro-nutrients to plants to enhance production.

A bountiful agrarian country is exemplary of Elysium, a prosperous farmer sets the foundation of a strong economy, environment-friendly safe products point towards a responsible nation and HPM Chemicals strive to attain all these parameters by serving the society through their quality-based Agro Chemical products.
