

POWERFUL

DELcURE LifeSciences Limited

REDEFINING HEALTHCARE

Indian Pharmaceuticals Industry has witnessed a momentous progress in last few decades. Indian companies contribute significantly towards global pharmaceuticals industry. Today, the industry occupies a paramount position in global pharmaceuticals market.

The progress in the industry has also attracted a lot of interest resulting in the entry of more than 125 new companies during the last 5 years. However a handful of them have made a mark inspite of low entry barrier. Shrinking product pipelines, changes in regulatory scenario

is making it difficult for new entrants to establish themselves. The survival of new companies is seemingly dependent upon innovation and adapting swiftly to the changing environmental scenario.

One such company that has created an impact & carved out a niche in this fragmented market is DelCure LifeSciences Ltd (DLL). DLL is the brain child of **Mr. P K Pathak a Pharma veteran**. Mr. Pathak is an inspiring and visionary leader with three decades of rich experience in pharmaceutical industry in Sales & Marketing, International Business, and Supply Chain Management & Operations. Mr. Pathak served as Chief Executive – Global Formulations with RPG LifeSciences and Senior Director – Sales & Marketing with Dr. Reddy's Laboratories.

He has well-rounded experience of running business arms in APAC, Central & Latin American countries & Africa. During his professional career he has managed large number of in licensing assignments and brought new products to India and has been instrumental in collaborating with institutions of repute in the country and abroad. He has guided & mentored many successful industry leaders and has created a highly competent top management team at DelCure LifeSciences.
