

The success story of German Imaging Technologies (GIT) began in the year 2000 with the initial enterprise of selling manufactured toner cartridges, followed by inauguration of printer services to clients, and MPS solutions and event solutions were added in the years 2007 and 2010 respectively. In the year 2010 GIT also started with the renting of printers to customers for short term.

STEPPING STONES TO SUCCESS

In 2012, GIT opened its highly successful Abu Dhabi office. The year 2015 saw 3 new branches being opened in Al Ain, Jebel Ali and Sharjah and it launched its new brand 'LION'. In 2016, it started wholesale operations in Kenya and Kuwait and GIT East Africa Ltd was launched in Nairobi, Kenya which now employs more than 10 people.

PROVIDING UNIQUE UNMATCHED SOLUTIONS

GIT offers ideal solutions to the business needs of its customers, and no other company in the region can match it in terms of the product quality and after-sales services.

It caters to more than 2,000 customers in 15 countries across Africa and Middle East providing them best in class remanufactured toner cartridges, printers, leasing, service contracts and managed print services thereby reducing

their botheration and cost.

GIT embarks upon a manufacturing strategy that focuses on production by economical use of available resources and selection of ecologically sound additional parts. This has made a serene impact on the local environment around the site of the company.

Moreover, being the largest stock-holder of these products and providing convincing turn-key solutions in a reliable and responsible manner has made GIT an established brand in this region.

AN ALL-INCLUSIVE APPROACH

GIT is committed to offer people a fair choice, to create jobs and to contribute towards healthy environment and sustainable future. A characteristic feature that has distinguished it from other players in the field over the last 2 decades is their policy to take all the stakeholders into confidence and take note of their advice and suggestions while making decisions. Moreover, they try to solve the stakeholders' problems in the shortest possible time.

German Imaging Technologies is very particular about maintaining the quality of its products, because of which during the years 2008-2010 it has already grown by over 100%. The future vision of GIT is to be ranked as the first choice in OEM-alternative document printing solutions for consumers in the Middle East and Africa.

German Imaging Technologies

PRINTING FOOTSTEPS OF PEERLESS SUCCESS

Founded in 1999 with the sole purpose of manufacturing toner cartridges for the Middle East and Africa, Dubai-based German Imaging Technologies has strengthened its foothold in the region by setting up branches all over in the Middle East and Africa, and has established itself as the leading document printing solutions provider
