

The platform is very effective and is being adopted by various organizations to bring in complete transparency by decentralizing the data using blockchain and delivering a basic platform to all the stakeholders involved to share information promoting ethical business conduct.

ETHICAL & TRANSPARENT PLATFORM

It reduces exploitation in the forms of poor working condition, harassment, low wage payment & child labour, and serves as a hub for various small- and medium-size retailers, suppliers & workers to trade together in the Namahe Ecosystem and by creating tools & interfaces for each tier and empowering all stakeholders through the use of blockchain.

It enables the retailers and suppliers to trade together in a secure marketplace with confidence eliminating unwanted expenses on travel trips or paying commissions to the mediators. Namahe also provides its clients the additional advantage of ensuring full transparency of their supply chain.

DECENTRALIZATION THROUGH AI

Strengthened by permissioned IBM Hyperledger blockchain platform and Google Artificial Intelligence (AI), Namahe works as a silent monitoring system in real time with an

advanced general intelligence to detect delays, fraud or unusual events, such as extreme weather events or floods, that may influence the functioning of the supply chain and triggers a chain of corrective measures involving notifications and programmed actions based on its prediction accuracy, and thus boosts the supply chain.

Namahe offers a huge potential to industries by compelling underperforming or inhumane supply chain members to either improve or run the risk of losing their business contracts and significantly reduces the unwanted audit cost and expenses.

The ethical supply chain loaded with the blockchain technology provides a public decentralized ledger that guarantees optimum visibility for suppliers besides preventing exploitation and empowers its users to keep track of key performance indicators including the number of working hours along with the amount of work performed to ensure the payment of correct wages.

Hence, Namahe guarantees a fair minimum wage for workers, improving their life standard and preserving their human rights. By providing a single transparent platform to its users, it helps in identifying new business partners and assessing each other's competence level resulting in an overall improvement in the supply chain efficiency.

Namahe

OFFERING INTELLIGENT SOLUTIONS

Established with a vision to set a novel benchmark in the industry to acquire transparency and connecting different elements of a value chain, Namahe provides an intelligent end-to-end supply chain platform ensuring ethical sourcing in their supply chains, cutting down auditing expenses and reducing the risk of negative publicity
