

POWERFUL

Felix Hospital

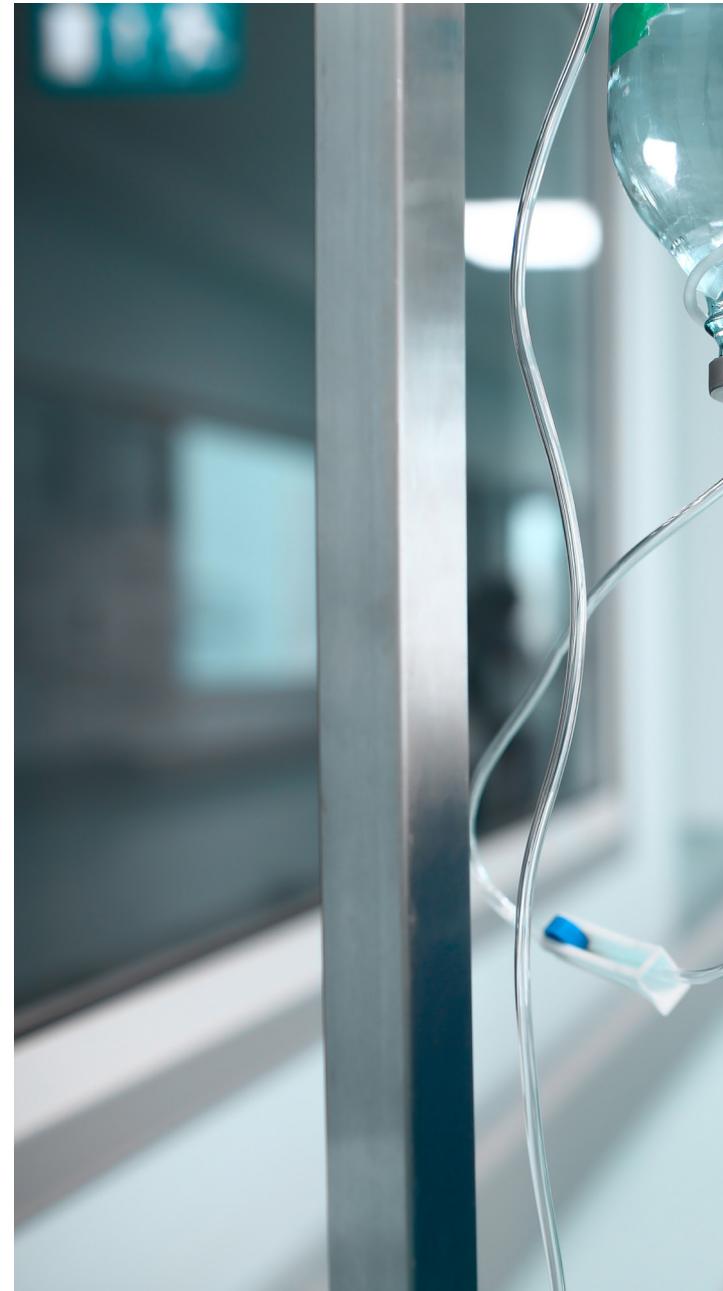

CARE KNOWS NO BOUNDARIES

Felix Hospital is an integrated hospital established by a conglomerate of visionary doctors who have synthesized together their world-class expertise to march on a robust journey in providing best possible health services to the ever-burgeoning demand of patients in this modern era. Incepted in the year 2015 this super specialty hospital is entrusted with world-class facilities, sans pareil clinical excellence, a dedicated team of doctors and nurses, individual patient

care, ethical beliefs, transparency in action, cost-effective prices, and an unprecedented vision of care.

COMMITTED TO CURE

The boundless dedication of the team at Felix Hospital is instrumental in their high-quality care, superlative medical services, and individual care, through peerless commitment that desires only their patients' well being. It is one team of 23 renowned and experienced doctors specialized in their specific arenas led by the dynamic Dr D K Gupta offering a comprehensive cohesion of all specialized facilities under one roof – not only the conventional specialties, but also a varied range of super specialty facilities including Endocrinology, Gastroenterology, Nephrology, Pulmonology, Cardiology (Non-invasive), Mother and Child Care, Dermatology, Plastic and Reconstructive Surgery, Joint Replacement and Orthopaedics, Critical Care, Anesthesiology & Pain Management, Dentistry, and Emergency Services. Apart from the ultra modern facilities it has all the quintessential equipment for critical care and

haemodialysis facility. The hospital has its own fleet of ambulances with well-trained drivers and IOU facility.

The meticulously designed structure of diagnostic facilities at Felix Hospital helps patients get the best treatment through CT scan, Ultrasonography, Mammography, Routine Radiology, ECG, EEG, TMT, ECHO, Colour Doppler, Hotter Monitoring, PFT, Diagnostic Endoscopy, Fully Automated Pathology, Microbiology, Cyto and Histopathology in addition to a Blood Bank with Component separation units and Aphaeresis unit.

With world-class infrastructure, its rooms are airy and hygienic; uninterrupted essential supplies are maintained, and precaution against emergencies like fire and earthquake are also taken care of.

MISSIONARIES OF GOD

The well-trained staff at the Felix Hospital understands the emotions and pain of the patient, family & friends and provides treatment with utmost care 24x7, and the doctors here are on a mission to cure the patients, share their woes, and streamline their expertise and experience to bring smiles on patients' faces. However, all the above-mentioned has been possible under the determined and focused leadership of Dr D K Gupta who has diligently created a dedicated team at the Felix Hospital catering to Ghaziabad, Faridabad and the

surrounding rural areas. Its cost-effective treatments along with the unflinching core values to treat and guide the patients transparently have earned the hospital a name of trust and care.

Providing comprehensive and economic healthcare and health check-up packages covering all age groups and policies that are flexible enough to accommodate the specific requirements of particular organizations, Felix Hospital has made life easier and more protective for its patients. They also have a compassionate approach towards the very needy as the Felix Wellness offers special programmes for the school-going children and contributes towards the society at large.

In the rapidly growing healthcare industry of India with a parallelly growing demand of patients for a higher scale of treatments with world-class facilities to save precious lives, Felix Hospital is contributing in its own way to make a healthier India.
