Sofat Infertility CENTRE

OFFERING SOLACE AND SOLUTIONS

Understanding that it's a challenging journey for a couple when they realize that for becoming parents of a child they need to be medically assisted, Sofat Infertility Centre, Ludhiana, Punjab has provided the solace to many hopeful couples to get over their solitude and become proud parents of healthy children.

Being the first infertility centre in Punjab to start Laser Hatching to increase the success rates of test tube

babies in India, Sofat Infertility Centre is not only a pioneering infertility clinic that brings in advanced technology for creating life, it also helps those couples who have been disheartened by repeated failures, and feel drained off financially and emotionally.

The commitment, dedication, continuous endeavors, vision and experience of Dr Sumita Sofat, and superior technology coupled with stringent quality control, advanced reproductive technology, state-of-the-art IVF/ICSI/TESA Lab with assisted Laser Hatching Technique and a team of expert doctors at Sofat Infertility Centre have made them the most successful clinic in Punjab.

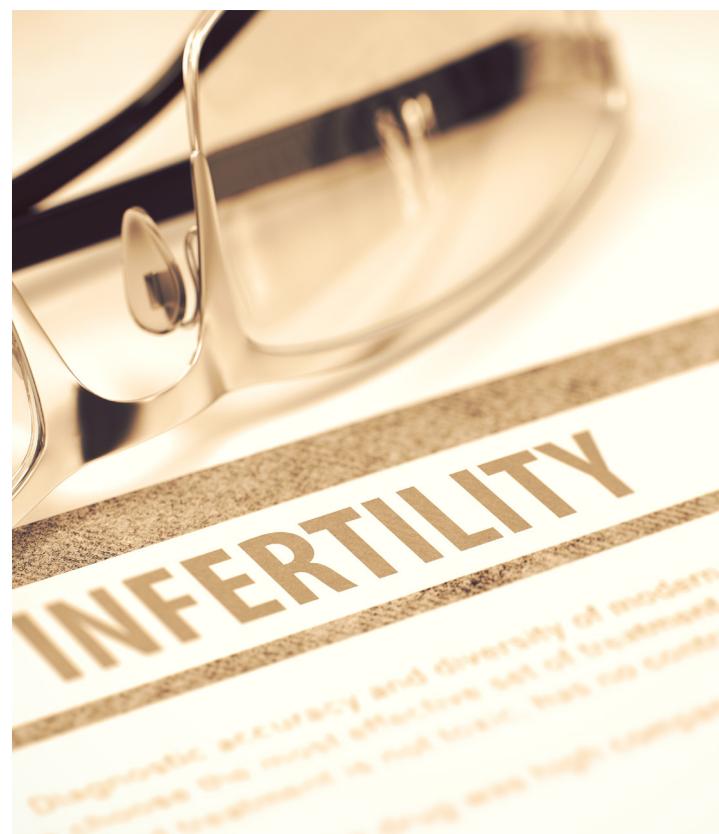

DELIVERING DREAMS

After years of perseverance, today Sofat Infertility Centre stands at par with international standards using technologies like vitrification of eggs and Endometrial Receptivity Analysis (ERA). In addition, the Centre is a specialist in Embryo donation, Egg

donation, Infertility Treatment services, Male infertility, sperm banks, Infertility drugs, IVF, ICSI, Infertility clinic, Donor egg, etc. Being the pioneers in the latest technique ICSI, they have a success rate of nearly 45% to 50%, as they employ different techniques of assisted laser hatching to improve pregnancy rates in patients for previously failed cycles.

Their use of pioneering and advanced technologies has majorly helped them in boosting their already high success rate of getting positive results. As they are very popular nationally and internationally because of the trust they have created in the minds of their patients, a number of NRIs and foreign tourists approach them for help. Believing that helping their patients is a service to the nation and humanity, they offer best NRI IVF

services in the region at affordable cost with high-quality infertility treatments, advanced reproductive techniques and a high-class infrastructure. For NRIs they provide expert services in fertility treatment IVF, infertility, IUI, ICSI, egg donation, embryo transfer, natural infertility, egg bank, surrogacy, etc.

Sofat Infertility Centre is thus striving hard to make wishful thinking of couples a reality by also taking up unconventional and complicated cases and still giving successful results in most cases. As it well understands the anxiety and

nebulous state of mind of its patients, it takes care of them both medically and psychologically. Its compassionate team of doctors provides ethical and transparent services to the hopeful couples at cost-effective prices, and offers personalized attention to its patients, thus creating an everlasting bond between the couples and the doctors who become partners in bringing new lives to this world.

A GODMOTHER

Dr Sumita Sofat is a woman of substance with two decades of experience as a successful gynecologist and infertility expert. Profusely dedicated to her field she is the flag bearer in introducing global technologies in her clinic. Having delivered thousands of Test Tube and ICSI babies her credibility as an infertility expert is unparalleled, and deservedly she has been felicitated by several national and international organizations with distinguished awards.
