

In a world of changing trends with modern generations aspiring for sensuous and aesthetic pleasure from everything around them, Glocera has been taking utmost pains to merge this primary convenience into the comfort zone of the main residence. The company also boasts of a wide variety of options in multiple terms including designing of luxury bathrooms, sanitary wares, bathroom furniture and designer tiles.

BRINGING BEST TO ITS CUSTOMERS

With a team of highly qualified, experienced and dedicated architectural experts at its disposal, the company is engaged in ceaseless endeavours to invent and implement contemporary designs to suit the modern lifestyles and individual needs as well as tastes.

The company's mission statement is utmost customer satisfaction, and therefore, it strives to honour deals and leaves no stone unturned to ensure timely delivery of its products. The company considers that winning the trust of its clients is its sole objective.

Instead of catering to the clients' need in a stereotyped manner, it focuses on personalized demands in keeping with their aspirations of a dream home, something novel in a world of ordinary ones.

MARCHING AHEAD OF COMPETITION

Glocera recently accomplished a rare achievement of a game changer, when the company set up its manufacturing in India at Ghiloth, Rajasthan for the production of sanitary wares where with a strong environment-friendly belief, it has started to run its manufacturing unit on gas supplied by the Rajasthan Government. The gas connectivity is a historical step since it is an incentive for the other competitors, investors and manufacturers.

Thus, with its innumerable successes, Glocera has emerged as one of the fastest expanding companies in the field, with a capacity of 3500 sellable products a day.

It intends to excel all other competitors both in terms of quality as well as price and services of its products in the market. This would not only spread the company's business abroad but would also carry the flag of Indian cultural values abroad.

SOCIAL INITIATIVES

GLOCERA has been rigorously working to support Indian government's indigenous development initiative - "Make in India", UNO's development goals and WHO targets.

Glocera has also launched Glocera Nav Durga Awards to felicitate and motivate women from varied fields, with a social message that "every woman is a goddess in herself".

Glocera

ADDING CREATIVITY TO YOUR BATHROOMS

Global Ceramics Private Limited, popularly known as Glocera, has revolutionized the concept of bathrooms & washrooms by introducing ultra-innovative & high-class aesthetics in the construction strategy, by editing latest designs, permutations and combinations of ingenious ideas from countries such as Italy, Spain, China, Brazil, Egypt and Turkey, with imported luxury tiles & sanitary wares
