JAYSHREE PERIIVAL

INTERNATIONAL SCHOOL

SOWING THE SEEDS OF LEARNING

Jayshree Periival International School is one of a kind as it teaches the students to outgrow the basic learning principles and look out for creativity in the universe surrounding them. They are taught to stare at an empty canvas and see a work of art, or to sit in silence and listen to a song that's never been written, or to gaze at a red planet and see a laboratory on wheels. Here they learn the importance of giving back to the society from which they draw their sustenance and to have an eye for helping the lesser privileged section of the society.

These tiny toddlers grow up to invent and push the human race forward, they learn to make a difference and change

the world for the better. In the process of 'innovating' and 'inventing', the students discover themselves and find their special places in the world as they combine them to 'innovate' a tomorrow for themselves and for the world. These children gallop towards the future armed with confidence, imagination, discovery of themselves and the innumerable skills that come from being loved, nurtured and raised at Jayshree Periival International School.

DEDICATED TO EDUCATION

Not only is Jayshree Periival an educationist par excellence, but she's a name known for nurturing the life of the toddlers in the most poised manner. The Jayshree Periival International School was earlier called as Step by Step International School. The brand is known to discipline young minds to become global citizens who are rooted to tradition and yet ready to face the world. When they enter the tall castle doors of the school, they start a journey of 'Innovating minds, Elevating souls.'

The brand focuses on both educational and personal growth of each and every student as they believe that each one is blessed with some kind of talent and honing that talent is what the key responsibility of the school is. The students are encouraged to chase their dreams and explore the plethora of opportunities that are on offer.

AHEAD OF THE CURVE

The mission statement of the brand is to ensure holistic learning is imparted. Students of Jayshree Periwál International School leave school as peace loving lifelong self-learners who value honesty, integrity, loyalty, compassion and prudence. They develop sensitivity and respect for all people and cultures, cultivate entrepreneurial and social skills.

The educational institution aims to become a leading name in international education offering the IGCSE and all the IB programs. They provide avenues for academic and holistic development and create globally responsible citizens who confront challenges without the fear of failure.

With a view to achieve the same, the institution aspires to have experienced and exceptional faculty who believe in constant upskilling and professional development. The brand has a vision to carve a community that thrives on teamwork and individual excellence.

The institution conceptually believes in paying emphasis on the process of continuous learning rather than the churning the best results. This process-driven approach equips them with the skills needed for life-long learning. With interactive teaching methods the students are taught to imbibe the correct values that lead to 'education' in the truest sense of the word.

While evaluating both formative and summative assessments of the students, they are tested for an understanding of the subject-matter and not merely by their ability to rote learn.
