

POWERFUL

KALOREX Group

SHAPING THE FUTURE

Kalorex Group plays a pivotal role in synchronizing the thoughts of a child, providing the bricks that build the basic formation of a student, harnessing their individual skills and empowering the children to believe in their own abilities. Serving the society through education since its inception in 1995, Kalorex Group is a prestigious professionally managed autonomous institution that has activities focused on K-12 education.

In their journey of more than two

decades they have persistently pursued their goal to shape the makers of tomorrow helping them grow by leaps and bounds, giving fire to their relentless fervor for innovative thinking coupled with scientific approach, and encourage them to surpass expectations to achieve success. In the last 22 years the Kalorex Group has opened more than 40 educational institutions from pre-school to university defying the burgeoning competition and imprinting successful footprints.

The methodology used by Kalorex schools centres around identifying each child's unique abilities and maximizing their learning capacities to become academic achievers, critical thinkers, and effective communicators. Apart from providing individual attention to the children, they hone their skills through multi-sensory approach, theme-based learning and teaching through play way methods by experienced and trained teachers. Their methods strive towards exploring the multi-faceted skills of the human brain conjoined in congruence

with the constructive, communicative, and cognitive abilities that form the base of a child's learning capacity. Their philosophical and pedagogical approach is represented by the acronym "WORLD" wherein the individual letters in it stand for Workshop for parents, Overall development of children, Role of Mentor, Life skills, and Doing versus Rote Learning.

The Kalorex Group has been dedicatedly endeavoring towards making learning a delightful journey for the children of all groups, nurturing students with the best quality education, and being the first choice as a temple of learning. They make skillful learning through K-12 education a visionary quest endowed with excellence, sound vision and unparalleled growth to enable children to touch the skies. Their objective is to

create an all-round development of the children who understand the traditional values of yesterday; are dedicated, devoted, and compassionate while being simultaneously well versed with the technological advances and digital learning.

Dr Manjula Pooja Shroff, CEO and MD Kalorex Group, has carved her own path to enlighten many lives through her entrepreneurial skills backed by her educational qualifications. She established her first school (DPS) as a franchise and the phenomenal success

of her first enterprise motivated her to keep crossing new milestones. The pre-school chain started under the Kalorex Group is doing extremely well pan- India and also in the Middle East.

SHARING IS CARING

The Kalorex Group believes in giving back to the society through their compassionate ventures that have benefitted the needy. They put their foot forward in reconstructing community halls in Surat in 2006 used for educating the underprivileged children; they generously took care of the Gujarat Earthquake victims in 2001-2002. They formed the Visamo Kids Foundation for the underprivileged children. Perna, an initiative by the Kalorex Group is an institute which caters to the children with specific learning difficulties and offers solutions to them. They keep organizing several camps and awareness programmes to educate and help the underprivileged children.
