

EMERGING

FOOD & BEVERAGES 

Nutrivor Dairy Manufacturing LLC, headquartered in Dubai, UAE, is a subsidiary of Tropical General Investments (TGI) Group, a global conglomerate with operations in 13 countries across Africa, the Middle East, and Asia. The company selected the UAE as its regional base and established a state-of-the-art dairy production facility in Dubai Industrial City. Spanning 100,000 sq. ft., the plant produces up to 120,000 liters of liquid dairy each day. Powered partly by solar energy with an annual generation capacity of 100,000 kWh, the facility was designed with a strong emphasis on sustainability, clean energy, and zero-waste operations. Incorporated in January 2016, Nutridor quickly earned recognition across emerging markets by building an international presence and offering consumers a selection of nutritious, high-quality dairy products. The company's growth continues under the leadership of its Chief Executive Officer, Mr. Sankha Biswas. He brings more than 25 years of global experience in the food and beverage industry. A graduate of Harvard Business School's Executive Management Program, he is widely regarded for his strategic insight and deep sector expertise. Mr. Biswas also serves on the Board of Directors of the UAE Food & Beverage Business Group. This role underscores his impact on the region's food sector, with his vision and global perspective reinforcing Nutridor's standing in the global dairy market.

THE FULL SPECTRUM OF NUTRITION

Nutrivor offers an extensive selection of dairy and non-dairy items, including evaporated milk, sweetened condensed milk, UHT milk, soy milk, cheese, butter, milk powder, butter oil, fruit juices, UHT malt beverages, and energy drinks. Under its flagship brand Abevia, the company applies scientific expertise and product innovation to create nutritious milk products and flavourful dairy

NUTRIDOR DAIRY MANUFACTURING LLC

SUSTAINABLE DAIRY FOR A HEALTHY TOMORROW

Nutrivor Dairy Manufacturing LLC is an esteemed dairy manufacturer recognised for delivering high-quality, sustainable dairy products to households worldwide. Recognised as a Superbrand, the company's success stems from its deep consumer insights and market responsiveness

treats. Alongside standard formulations enriched with calcium and vitamins, Nutridor develops products designed to deliver essential micronutrients while being accessible and affordable to a broad consumer base.

DEDICATED WORKFORCE

A skilled and motivated team forms the foundation of Nutridor's operations. They work collectively to deliver lasting value for customers. Team members possess a clear understanding of how dairy products influence everyday consumption and maintain a focus on customer satisfaction through dependable quality. Their efforts align with TGI Group's objective of enhancing resource utilisation across diverse ventures in emerging markets. The workforce consistently refines both the nutritional profile and overall standard of each product, ensuring every offering meets Nutridor's benchmark for quality.

COMPASSION IN ACTION

In addition to its business achievements, Nutridor takes an active role in social initiatives that support community welfare. The company contributes to programs and campaigns designed to improve living standards and promote inclusion. It is the executive sponsor of Climb to Change a Life, an initiative that helps children with mobility challenges gain independence and confidence.

PROMOTING A HEALTHIER FUTURE

Aligned with its goal of making a healthier tomorrow, Nutridor integrates social responsibility into its long-term objectives. The company focuses on developing nutritious dairy products through research and innovation in both health and flavour, supported by investments in advanced production facilities. This approach has bolstered customer confidence and driven the company's growth in the dairy sector.
